#### **SECTION 4. FIRST AID MEASURES**

If inhaled In case of skin contact	-	Move to fresh air. If molten material comes in contact with the skin, cool with plenty of water. DO NOT remove solidified product, as removal could result in severe tissue damage. Obtain medical attention.
In case of eye contact	:	Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.
If swallowed	:	Rinse mouth with water.
Most important symptoms and effects, both acute and	:	Consult a physician if necessary. Inhalation of dust may irritate the respiratory tract. Prolonged inhalation of high doses of decomposition products
delayed		may give headache or irritation of the respiratory tract. Suspected of damaging fertility.
Notes to physician	:	Treat symptomatically. No specific instructions needed.

#### **SECTION 5. FIREFIGHTING MEASURES**

Suitable extinguishing media Unsuitable extinguishing media	:	Water in spread jet, dry chemicals, foam or carbon dioxide. High volume water jet
Specific hazards during firefighting	:	Principal toxicant in the smoke is carbon monoxide.
		Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Use personal protective equipment. Ensure adequate ventilation.
Environmental precautions	:	Should not be released into the environment. It is recommended to implement systems and practices (such as Operation Clean Sweep®) to prevent accidental release of
Methods and materials for containment and cleaning up	:	plastics in to the environment. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Non-sparking tools should be used. Vacuum or sweep up spill. All spill of material must be removed immediately to prevent slipping accidents. Recycle or dispose loose material properly. Do not flush into surface water or sanitary sewer system.

## SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Dust from the product gives a potential risk for dust explosion. Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. All equipment shall be grounded.
Advice on safe handling	:	During processing and thermal treatment of the product, small amounts of volatile hydrocarbons may be released. Provide adequate ventilation. Local exhaust ventilation may be necessary. Avoid inhalation of dust and decomposition fumes. Avoid contact with skin and eyes.
Conditions for safe storage	:	
Further information on storage stability	:	Keep in a dry place.

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION
