# Borcoat™ ME0420

Version 1.0 Revision Date 03/24/2022 Former date -

#### **SECTION 1. IDENTIFICATION**

Product name : Borcoat ME0420

Manufacturer or supplier's details

Supplier : Borealis Compounds Inc

176 Thomas Road, NJ 07865 Port Murray, United States of

America (USA)

Telephone: +1 908 850 6200

E-mail address : sds@borealisgroup.com

Recommended use of the chemical and restrictions on use

Recommended use : Raw material for plastics industry

Restrictions on use : Use only according to our recommendations.

### **SECTION 2. HAZARDS IDENTIFICATION**

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Respiratory sensitisation : Category 1

Skin sensitisation : Category 1

**GHS** label elements

Hazard pictograms

Signal word : Danger

Hazard statements : H317 May cause an allergic skin reaction.

H334 May cause allergy or asthma symptoms or breathing

difficulties if inhaled.

Precautionary statements : Prevention:

P261 Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. P272 Contaminated work clothing must not be allowed out of

the workplace.

P280 Wear protective gloves.

P285 In case of inadequate ventilation wear respiratory

protection.

Borcoat is a trademark of the Borealis group.

Version 1.0 Revision Date 03/24/2022 Former date -

## Response:

P302 + P352 IF ON SKIN: Wash with plenty of soap and water. P304 + P341 IF INHALED: If breathing is difficult, remove person to fresh air and keep comfortable for breathing.

P333 + P313 If skin irritation or rash occurs: Get medical advice/

attention.

P342 + P311 If experiencing respiratory symptoms: Call a

POISON CENTER/ doctor.

P363 Wash contaminated clothing before reuse.

## Disposal:

P501 Dispose of contents/ container to an approved waste

disposal plant.

#### Other hazards

Warning!

May form combustible dust concentrations in air (during processing).

The product burns, but is not classified as flammable.

## **SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS**

Substance / Mixture : Mixture

Chemical nature : The product is a polyethylene polymer.

## Components

Chemical name	CAS-No.	Concentration (% w/w)
maleic anhydride	108-31-6	>= 0.1 - < 1

Actual concentration is withheld as a trade secret

### **SECTION 4. FIRST AID MEASURES**

If inhaled : Move to fresh air.

If symptoms persist, call a physician.

In case of skin contact : Wash off with soap and plenty of water.

Call a physician if irritation develops or persists.

If molten material comes in contact with the skin, cool with plenty of water. DO NOT remove solidified product, as

removal could result in severe tissue damage.

In case of eye contact : Flush eyes with water as a precaution.

Get medical attention if irritation develops and persists.

If swallowed : Rinse mouth with water.

Consult a physician if necessary.

Most important symptoms and effects, both acute and

Inhalation of dust may irritate the respiratory tract.

Prolonged inhalation of high doses of decomposition products

# **Borcoat ME0420**

Version 1.0 Revision Date 03/24/2022 Former date -

delayed may give headache or irritation of the respiratory tract.

Skin contact may provoke the following symptoms:

Irritation

May cause an allergic skin reaction.

May cause allergy or asthma symptoms or breathing

difficulties if inhaled.

Notes to physician : Treat symptomatically.

No specific instructions needed.

#### **SECTION 5. FIREFIGHTING MEASURES**

Suitable extinguishing media : Water in spread jet, dry chemicals, foam or carbon dioxide.

Unsuitable extinguishing

media

High volume water jet

Specific hazards during

firefighting

Principal toxicant in the smoke is carbon monoxide.

Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a

potential dust explosion hazard.

Special protective equipment:

for firefighters

Wear self-contained breathing apparatus and protective suit.

## **SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation.

Use personal protective equipment.

Environmental precautions : Should not be released into the environment.

It is recommended to implement systems and practices (such as Operation Clean Sweep®) to prevent accidental release of

plastics in to the environment.

Methods and materials for containment and cleaning up

Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.

Non-sparking tools should be used.

Vacuum or sweep up spill.

All spill of material must be removed immediately to prevent

slipping accidents.

Recycle or dispose loose material properly.

Do not flush into surface water or sanitary sewer system.

### **SECTION 7. HANDLING AND STORAGE**

## **Borcoat ME0420**

Version 1.0 Revision Date 03/24/2022 Former date -

Advice on protection against

fire and explosion

Dust from the product gives a potential risk for dust explosion.

All equipment shall be grounded.

Routine housekeeping should be instituted to ensure that

dusts do not accumulate on surfaces.

Advice on safe handling

During processing and thermal treatment of the product, small

amounts of volatile hydrocarbons may be released.

Provide adequate ventilation.

Local exhaust ventilation may be necessary. Avoid inhalation of dust and decomposition fumes.

Avoid contact with skin and eyes.

Conditions for safe storage

Safety aspects do not require any special precautions in terms

of storage.

Further information on

storage stability

Keep in a dry place.

### **SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

### Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
maleic anhydride	108-31-6	TWA	0.25 ppm 1 mg/m3	NIOSH REL
		TWA	0.25 ppm 1 mg/m3	OSHA Z-1
		TWA	0.25 ppm 1 mg/m3	OSHA P0
		TWA (Inhalable fraction and vapor)	0.01 mg/m3	ACGIH

**Engineering measures** 

Provide adequate ventilation.

Local exhaust ventilation may be necessary.

It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment.

deficient environment.

### Personal protective equipment

Respiratory protection

In case of dust development use dust mask.

In the case of vapour formation use a respirator with an

approved filter.

## **Borcoat ME0420**

Version 1.0 Revision Date 03/24/2022 Former date -

When workers are facing concentrations above the exposure

limit they must use appropriate certified respirators. The filter class for the respirator must be suitable for the

maximum expected contaminant concentration

(gas/vapour/aerosol/particulates) that may arise when handling the product. If this concentration is exceeded, self-

contained breathing apparatus must be used.

Hand protection

Material : polyvinyl alcohol (PVA, PVAL)

Material : PVC or other plastic material gloves

Remarks : Please observe the instructions regarding permeability and

breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the

danger of cuts, abrasion, and the contact time.

Eye protection : Safety glasses

Skin and body protection : Protective clothing

Hygiene measures : When using do not eat, drink or smoke.

Wash hands before breaks and at the end of workday.

### **SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

Appearance : pellets

Colour : natural colour

Odour : slight

pH : Not applicable insoluble

Melting range : 212 - 284 °F / 100 - 140 °C

Boiling range : Decomposes on heating.

Flash point : Not applicable (solid)

Evaporation rate : Not applicable (solid)

Flammability (solid, gas) : The product is not flammable.

## **Borcoat ME0420**

Version 1.0 Revision Date 03/24/2022 Former date -

Self-ignition :  $> 608 \, ^{\circ}\text{F} \, / > 320 \, ^{\circ}\text{C}$ 

Upper explosion limit / Upper

flammability limit

Not applicable

Lower explosion limit / Lower

flammability limit

Not applicable

Vapour pressure : Not applicable (solid)

Density : 0.9 - 1.0 g/cm<sup>3</sup>

Solubility(ies)

Water solubility : insoluble

Partition coefficient: n-

octanol/water

Not applicable insoluble

Viscosity

Viscosity, dynamic : No data available

Explosive properties : Not explosive

Oxidizing properties : The substance or mixture is not classified as oxidizing.

### **SECTION 10. STABILITY AND REACTIVITY**

Reactivity : Stable under recommended storage conditions.

Chemical stability : The product is a stable thermoplastic.

Possibility of hazardous

reactions

None known.

Conditions to avoid : Extremes of temperature and direct sunlight.

Incompatible materials : None known.

Hazardous decomposition

products

Under fire conditions: Carbon monoxide

During processing and thermal treatment of the product, small

amounts of volatile hydrocarbons may be released.

Version 1.0 Revision Date 03/24/2022 Former date -

### **SECTION 11. TOXICOLOGICAL INFORMATION**

### **Acute toxicity**

Based on available data, the classification criteria are not met.

#### Skin corrosion/irritation

Based on available data, the classification criteria are not met.

## Serious eye damage/eye irritation

Based on available data, the classification criteria are not met.

### Respiratory or skin sensitisation

#### Skin sensitisation

May cause an allergic skin reaction.

## Respiratory sensitisation

May cause allergy or asthma symptoms or breathing difficulties if inhaled.

### Germ cell mutagenicity

Based on available data, the classification criteria are not met.

### Carcinogenicity

Based on available data, the classification criteria are not met.

IARC No component of this product present at levels greater than or equal to 0.1% is

identified as probable, possible or confirmed human carcinogen by IARC.

**OSHA**No component of this product present at levels greater than or equal to 0.1% is

on OSHA's list of regulated carcinogens.

NTP No component of this product present at levels greater than or equal to 0.1% is

identified as a known or anticipated carcinogen by NTP.

## Reproductive toxicity

Based on available data, the classification criteria are not met.

### STOT - single exposure

Based on available data, the classification criteria are not met.

## STOT - repeated exposure

Based on available data, the classification criteria are not met.

## **Aspiration toxicity**

Based on available data, the classification criteria are not met.

#### **Further information**

### **Product:**

Remarks : Inhalation of dust may irritate the respiratory tract.

Prolonged inhalation of high doses of decomposition products

may give headache or irritation of the respiratory tract.

## **Borcoat ME0420**

Version 1.0 Revision Date 03/24/2022 Former date -

#### **SECTION 12. ECOLOGICAL INFORMATION**

**Ecotoxicity** 

No data available

Persistence and degradability

**Product:** 

Biodegradability : Remarks: Not readily biodegradable.

Bioaccumulative potential

Product:

Bioaccumulation : Remarks: Does not accumulate in organisms.

Mobility in soil

Product:

Mobility : Remarks: Not expected to adsorb on soil.

Remarks: The product is insoluble and floats on water.

Other adverse effects

**Product:** 

Additional ecological

information

: Should not be released into the environment.

### **SECTION 13. DISPOSAL CONSIDERATIONS**

## **Disposal methods**

Waste from residues : This substance, when discarded or disposed of is not

specifically listed as a hazardous waste in Federal regulations.

However, it could be hazardous if it is considered toxic,

corrosive, ignitable or reactive according to Federal definitions

(40 CFR 261). Additionally, it could be designated as

hazardous waste if it is mixed with or comes in contact with a hazardous waste. If such contact or mixing may have occurred, check 40 CFR 261 to determine whether it is a

hazardous waste.

The transportation, storage, treatment and disposal of this waste material must be conducted in accord-ance with all

applicable Federal, state and local regulations.

Contaminated packaging : Empty containers should be taken to an approved waste

handling site for recycling or disposal.

Version 1.0 Revision Date 03/24/2022 Former date -

#### **SECTION 14. TRANSPORT INFORMATION**

## International Regulations

#### UNRTDG

Not regulated as a dangerous good

## **IATA-DGR**

Not regulated as a dangerous good

### **IMDG-Code**

Not regulated as a dangerous good

## Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

### **National Regulations**

#### **49 CFR**

Not regulated as a dangerous good

### Special precautions for user

Remarks : Not dangerous goods in the meaning of ADR/RID, ADN,

IMDG-Code, ICAO/IATA-DGR

### **SECTION 15. REGULATORY INFORMATION**

## **US State Regulations**

## Massachusetts Right To Know

No components are subject to the Massachusetts Right to Know Act.

## Pennsylvania Right To Know

poly[ethene-co-(1-octene)](0.9735:0.0265 w) 26221-73-8 poly[ethene-co-(butyl 2-propenoate)](0.73:0.27 w) 25750-84-9 maleic anhydride 108-31-6

### **Maine Chemicals of High Concern**

Product does not contain any listed chemicals

### **Vermont Chemicals of High Concern**

Product does not contain any listed chemicals

## **Washington Chemicals of High Concern**

Product does not contain any listed chemicals

# California Prop. 65

WARNING: This product can expose you to chemicals including methanol, which is/are known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

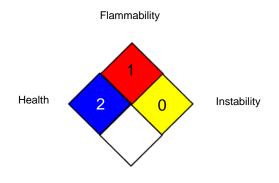

Version 1.0 Revision Date 03/24/2022 Former date -

#### **SECTION 16. OTHER INFORMATION**

#### **Further information**

#### **NFPA 704:**

Special hazard

#### HMIS® IV:

HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. The "\*" represents a chronic hazard, while the "/" represents the absence of a chronic hazard.
