### PRODUCT DATA SHEET

# Polypropylene

# MG455AI

### Polypropylene Compound, Mineral Filled

### **Description**

**MG455AI** is a 40% mineral filled polypropylene compound intended for injection moulding. This material has excellent balanced mechanical properties and high melt flow rate.

#### **Applications**

MG455Al has been developed especially for the car industry to be used in non-visible automotive interior parts with low emission requirements.

Air ducts Air filters

Automotive under the bonnet parts Air conditioning parts

### **Special Features**

Low volatiles Easy processing Reduced fogging

### **Physical Properties**

Property	Typical Value Test Method  Data should not be used for specification work		
Density	1230 kg/m³	ISO 1183	
Melt Flow Rate (230 °C/2,16 kg)	22 g/10min	ISO 1133	
Flexural Modulus (2 mm/min)	4.400 MPa	ISO 178	
Tensile Strength (50 mm/min)	32 MPa	ISO 527-2	
Heat Deflection Temperature B (0,45 MPa)	125 °C	ISO 75-2	
Charpy Impact Strength, notched (23 °C)	1,8 kJ/m²	ISO 179/1eA	
Charpy Impact Strength, unnotched (23 °C)	16 kJ/m²	ISO 179/1eU	
Charpy Impact Strength, unnotched (-20 °C)	10 kJ/m²	ISO 179/1eU	

Values determined on standard injection moulded specimens conditioned at 23°C and 50% relative humidity after at least 96 hours storage time.

#### **Application Related Tests**

Property	<b>Typical Value</b> Data should not be used for specifications.	Test Method ation work
Fogging (100 °C,16 h)	< 2 mg	DIN 75201
Emission	< 50 μgC/g	VDA 277

## Polypropylene

### **MG455AI**

#### **Processing Techniques**

The actual conditions will depend on the type of equipment used.

#### Injection Moulding

To avoid residual humidity from transport or storage, the material should be pre-dried approximately 2h at 80°C. This product is easy to process with standard injection moulding machines. Following moulding parameters should be used as guidelines:

Feeding temperature 40 - 80 °C

Mass temperature 210 - 250 °C

Back pressure Low to medium

Holding pressure 30 - 60 MPa

Mould temperature 30 - 50 °C

Screw speed Low to medium

Flow front speed 100 - 200 mm/s

#### Storage

**MG455AI** should be stored in dry conditions at temperatures below 50°C and protected from UV-light. Improper storage can initiate degradation, which results in odour generation and colour changes and can have negative effects on the physical properties of this product.

#### Safety

Please see our "Safety data sheet" / "Product safety information sheet" for details on various aspects of safety of the product. For more information, contact your Borealis representative.

#### Recycling

The product is suitable for recycling using modern methods of shredding and cleaning. In-house production waste should be kept clean to facilitate direct recycling.

Please see our "Safety data sheet" / "Product safety information sheet" for details on various aspects of recovery and disposal of the product.

### Regional Availability

Europe
