

Be alert for the risks in traffic

Drivers should be careful, and pedestrians and cyclists should always stay alert in the traffic. There is constant vehicle traffic on the public roads, and in the narrow routes of the plant areas, there are also work machines, pedestrians and cyclists.

Be always alert and monitor your surroundings. Use vehicles and equipment safely and according to the instructions.

As a pedestrian, be aware of the risks caused by vehicles, work machines and equipment. Do not assume that the driver or equipment handler sees you all the time. Use safe routes.

Thank you for your commitment to Borealis' Life Saving Rules and safe traffic behaviour in the area!

Themes for discussion:

- ✓ Normal traffic rules apply in Kilpilahti area. Do we follow them?
- ✓ Do we follow the speed limits?
- ✓ Do we always remember the seat belts?
- ✓ Are we using mobile phone when driving?
- ✓ Do we remember to use turn signals?
- ✓ Do we only park where it is permitted?
- ✓ Do we avoid unnecessary vehicle traffic in the plant areas?
